**Subject:** exide clean up

Hi Brent – do you all have on hand, or can point me to resource to understand Region 9's involvement in the Exide clean up to date in Vernon, CA? And broadly, when/how EPA does get involved in contamination issues (on heels of Flint, maybe you guys have a FAQ somewhere?)

We have gotten some inquiries as to why the federal agencies were not/are not more engaged. I

understand RCRA is delegated to CA DTSC, but I am trying to understand bigger context. I cc'd Iain Hart who is helping me research this issue.

Many thanks,

Alexis
